

Highlights from Carefree's First Earth Day Expo

As part of the Carefree Green Initiative, the Town held its first Earth Day Expo Saturday, April 17th in the Carefree amphitheater and gardens. Displays and booths were set up throughout the area.

The 34 Easy Street Restaurant cooked up a pancake breakfast in the amphitheater, and a number of vendors provided information and products to help citizens go green.

Cactus Shadows High School held art classes and created art pieces and clothing made from recycled materials.

Southwest Wildlife and Wild at Heart provided information on indigenous animals and the importance of preserving the environment.

“For a first time event, we were very pleased with the turnout and plan to do one next year,” said Carefree Councilman Bob Coady.
